

HEALTH & HYGIENE

Customer Guidelines

1 Planning for the Move

Vet your Movers carefully

- Do your homework and ask a lot of questions about safety measures - not just with regard to being careful with your breakables, but with regard to COVID-19.
- Call the moving company to ask about the steps that they have implemented to prevent the spread of COVID-19.
- Confirm if this is only lip service or the precautions are seriously implemented and that the staff is adequately trained in these procedures. At E-Movers we take this very seriously.
- Get a virtual quote via Zoom or Skype call.
- Confirm fully contactless service.

2 Preparation for the Move

- Thoroughly clean your new home / office.
- Confirm with the moving company that none of their staff assigned for this move are having any symptoms of COVID-19. At E-Movers we take this precaution so you do not have to worry.
- Brand NEW boxes: The coronavirus has been found to live on cardboard for up to 24 hours. At E-Movers we use all brand-new boxes for packing for every move.
- Try and do as much of the packing yourself as possible.
- Reach out to your neighbors – especially if you live in an apartment building – and share the date and time you plan to move. This gives everyone in your direct vicinity an opportunity to avoid unnecessary contact and let you know if your timing is a problem.
- If you or any family members are experiencing coronavirus symptoms, postpone your moving plans.

HEALTH & HYGIENE

Customer Guidelines

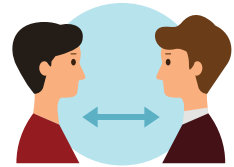

3 During the Move

- Wear masks and gloves at all times during the move.
- All E-Movers staff will bring their own supplies of Personal Protective Equipment (PPE).
- Minimize your contact with the E-Movers staff, maintaining a distance of at least 2 meters where possible.
- Where possible, clean your belongings, with standard domestic cleaning products before they are handled by others.
- Disinfect frequently touched objects and surfaces, paying particular attention to door knobs and handles.
- Place soap and paper towels next to sinks and hand sanitizer by doors.

Wear Masks & Gloves at all times

Minimize Contact with E-Movers Staff

Our Team comes with personal Safety Equipments

Disinfect frequently touched objects

4 After the Move

- Give your boxes and furniture a good cleaning once they're situated.
- Make sure to thoroughly wash your own hands after handling those items.
